

Saftea® Urn Liner

Your Hygienic Solution for Iced Beverage Dispensing

Saftea® Urn Liners offer you superior beverage quality and operational improvements for your Iced Tea, Sweet Tea and Iced Coffee urns.

Saftea® Urn Liner

HYGIENIC

Saftea® Urn Liners eliminate undesirable flavors left by metal urns and faucet residue. Our easy-to-change liners eliminate the need to clean and sanitize the faucet, preventing potentially harmful bacteria build-up. Moreover, unlined tea urns need to be emptied often to assure freshness and most importantly to prevent mold growth in tea beverages.

The Saftea® Urn Liner assures beverage freshness, optimal flavor, and safe consumption. Sanitation is greatly improved and the risk of bacterial and mold contamination is greatly reduced.

Eliminate faucet bacteria buildup

PROFIT ENHANCING

Cleaning urns and faucets is costly, often neglected, and produces inconsistent results. Our disposable urn liners cost less than the expense of properly cleaning and sanitizing urns and faucets.

Saftea® Urn Liners are easy to use and save labor. The changeover process of a liner **takes less than one minute** compared to an estimated 10 minutes to properly disassemble, clean, sanitize, and reassemble an urn and faucet.

Setup is super fast!

LAB TESTED & PROVEN

by  eurofins

Eurofins Microbiology Labs conducted a study to learn how well Saftea® Urn Liners inhibit growth of bacteria, yeast, and mold in a brewed tea product using commercial urns. The test was done under typical ambient conditions, comparing competitive liners and no liners.

Fungal organism (yeast and mold) levels proved to be “10-100 times less” using Saftea® Urn Liner when compared to tested alternatives. Therefore, the use of a Saftea® Urn Liner “may increase both the shelf life and the overall safety of brewed tea held in these urns over extended storage times.”

Please visit www.pansaver.com for the full Eurofins Microbiology Labs report.

BETTER CONSUMER EXPERIENCE

Approximately 85% of tea consumed in America is served iced, and the value and quality of your beverages drive traffic to your restaurant!* Saftea® Urn Liners ensure a consistent and superior taste because the beverages they hold are free of cross-contamination and potential “cleaning chemical” aftertaste. A better-tasting product means increased sales and customer satisfaction.

*Tea Association of the U.S.A. Inc., Tea Fact Sheet, 2015.

SAFETY SEALED

Sealed Saftea® Urn Liners eliminate the potential for foreign substance contamination. Inferior open top liners present a risk. The Saftea® Urn Liner, with its tamper-resistant zip-locking seal, is superior because it provides 100% contamination protection. The sliding zip-locking top makes sealing and securing the liner a quick, simple process. As an added bonus, the tight seal prevents dripping and spillage that can occur with ordinary open-top liners.

Each liner has a white, writable information strip, allowing easy date and time notation of each new beverage batch, as well as the date and time to remove liner to ensure continued beverage freshness and sanitation.

Writable information strip for easy date/time notation

Saftea® Urn Liner

Saftea® Urn Liners are also ideally suited for use in many insulated beverage containers. They are a simple and quick way to ensure a cleaner, more hygienic method of dispensing everything from iced teas and coffees to lemonades, fruit drinks, and more, and they prevent staining too!

USE WITH: **Pinch Tube Faucet – PanSaver®** Item #49675 (Tomlinson Model #1025675)

AVAILABLE FROM: PanSaver® (877-726-7287)
Heritage Food Service (800-458-5593)

8 SIMPLE STEPS TO REPLACE AN URN LINER

Change urn liner at least once per day.

1. Unthread existing faucet.

2. Replace with new Saftea® Pinch Tube Faucet (see available faucets below).

3. Open faucet.

4. Place liner in urn. Feed tube through faucet opening until tube protrudes.

5. Straighten tube. Close faucet.

6. Drape liner over outer rim of urn.

7. Pour in beverage.

8. Close zip-lock seal on liner. Tuck inside urn. Close lid.

Description	Item #	Dimensions	Unit/Pack	Compatible With Urn Models
