C. Facilitating Intercultural Competence: Experiential Methods and Tools

One of the main challenges for trainers and educators is finding meaningful methods and tools to develop intercultural competence. This workshop will equip you with creative methods for training and coaching for both culture-general and culture-specific contexts. We will focus on effective group dynamics, co-facilitation, adaptation, and strategic management of participants' and clients' needs, as well as the creation of your own activities. You can expect to be creatively, experientially, and reflectively engaged.
