THE INTERCULTURAL EFFECTIVENESS SCALE

**GLOBAL SKILLS
LOCAL AWARENESS**

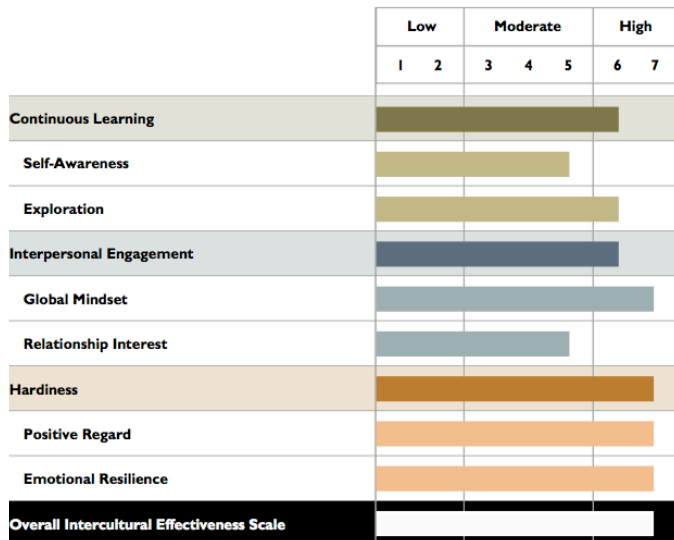

“The IES helped me find what I was not aware of in myself and guided the way to develop myself as a leader.”

International Student
Berkeley University

The **Intercultural Effectiveness Scale** is based on comprehensive research and evaluates competencies critical for effective interaction with people who are different from you. Research shows it is **reliable** and has predictive **validity**, which means people with higher results tend to perform at a higher level in terms of intercultural engagement skills.

Factors Measured:
