

ChromaLuxe Phenolic is comparable to high pressure laminate, but with a surface that is completely customizable. Phenolic can be applied to other materials to fill a need for those looking to cover large areas with a smooth faced, durable, imaged substrate.

ChromaLuxe Phenolic is a thin, impact resistant composite material with a rich, high gloss coating makes phenolic a valuable substrate for many applications. Because images are infused directly into specially coated sheets of Phenolic, ChromaLuxe offers unsurpassed color vibrancy, exceptional detail and color resolution.

PHENOLIC

Sheet Size: 49"x96" (1219,2x2438,4mm)

Thickness: .05" (1.27mm)

Sheet Weight: 6.3 lbs.

- Available in gloss white
- Hoffman Scratch Tester result of 1800
- Meets Class C flame spread index 200 or less and smoke developed index 450 or less
