About Us

Tasha and Karen are property millionaires who, maybe like you, started with very little experience and limited funds.

After a decade in the property industry, they are now a leading authority on investment property, having built a £3m portfolio of single lets, commercial conversions and Houses of Multiple Occupancy. They have their own lettings team and are probably best known for flipping (buying and selling) property and mentoring aspiring property investors.

Karen and Tasha are very different and each of them brings a different skillset to their business, marriage and mastermind groups. Not only do they work hard, they also work smart and can teach you to as well.

If you are ready to get stuck in, learn and work smart enough so that you can live the rest of your life the way that most people can only dream about, then Reson8te Mastermind might be for you.

“Deliberately seek the company of people who influence you to think and act on building the life you desire.”

- Napoleon Hill
