# Creamery Classics

**Premium brewed coffees deserve the finest complements from GoodWest!**

You take pride in your coffee program, so why settle for powdered creamers or wasteful plastic creamer cups? The Java Works™ Creamery Classics line combines wholesome, premium dairy products with a convenient and sanitary refrigerated dispensing system. Safe, fast, and clean - self-service at its best!

All Java Works™ Creamery Classics products are ultra-pasteurized, which means they can be stored at room temperature. Shelf life in the dispenser is 14 days, which virtually eliminates spoilage. For customers who prefer non-dairy, we offer rich and indulgent French Vanilla and Hazelnut creamers.

Java Works™ is supported by our best-in-class dispensing program. No up-front costs, no long-term contracts, and unsurpassed 24/7 support and service. Meeting our customers' coffee refreshment needs has been the total focus of our business since 1994.

# Creamery Classics Your Indispensable Coffee Refreshment Program!

Java Works™ Creamery Classics products are shelf stable and pre-bagged with integrated dispensing valves. The product never touches the machine, so there's no time-consuming sanitation. Our bulk dispensed creamers provide a substantial cost savings over creamer cups. Excess "takeaway" is also eliminated. Each case (2/4 L bags) yields the equivalent of 720 creamer cups.
