

# Business Plans

---

Do not miss the chance to start something new!

## Advantages of working with FMCS Growth Consultants:

- The implementation of a business plan - a viability study, will help you understand how you should establish your new business; the difficulties you may encounter from the competition, and also what to have in mind for the product or service you offer in order to differentiate from the ones existing in the market so as to win the target group you are addressing to.
- You will have an advantage in obtaining funding.
- You will have help and support in getting business decisions so as to avoid paying the price for potential mistakes.
- You will be able to deal directly with the problems that exist or could be caused by the way your business operates.
- You will have a strategic exit plan without getting lost.
- You will minimize legal problems that exist or may be encountered at the beginning of your own business.

## **Predict the future and operate your business safely and confidently by adding value to it.**

---

Through the implementation of a business plan, the FMCS Growth Consultants team gives you the opportunity to know from the outset what will be the result of implementing an investment you want to make. They will also inform you the course of your business in cases of development and restructuring of your operations in order to be aware of and watch out for the dangers.

Many of you have thought about starting your own business or making a modernization and extension to your existing facilities. You always take into account the positive scenario or believe so much your idea as if there is no risk of failure in the analysis you have done but in that way you do not examine properly and in detail what awaits you in the future.

In any case, you would definitely want to know what would happen in the future, taking into account every version, scenario and any risk that might arise if you start something new or change the way your business operates.

**Analyze your idea and invest in it by making it a reality!**

## Through this service, the following are considered:

---

- Analyze all the required scenarios of your business plan over time in order to know where the break-even point is, the maximization of your profitability and how you should respond to in cases of data and conditions differentiation over time.
- You will have a powerful decision-making tool to know from the start what your business risk is and the risks from other external factors.
- The analysis of the data is based on an investment that you want to do or in your existing business. The purpose of FMCS Growth Consultants is not to provide you with a sector analysis that will capture what has happened over the past five years in the industry you are about to invest but a business plan that will help you see the future of the industry so that you can easily make the right decisions that contribute to the growth and sustainability of your business.
