

## The corn and cotton farmer interview Mr.Bu Togola Result from using our products

Mr. Bu told us his experience that he makes more profit this year. He'd never gotten high yield like this for last 5 years ,but now he can make it after using "Excellent Combi One" and "Excellent High Calcium Boron".

Previously in 50 hectares he will get the yield 40 tons (0.8ton/hectare) but after used our products it increases about 25% to be 50 tons (1tons/hectare). Not only get more yield but also increase the quality of cotton. Despite water shortage problem ,he still get more yield.

For the corn, He also got more high quality and high quantity yield. The size of corn kernel is bigger and full. He was asked by other farmers about the products he uses so he suggests our products to those who are interested.
