

Electrically Heated Conveyor Oven

Principle

Middleby Marshall PS Series conveyor ovens bake both faster and at a lower temperature than other ovens. Vertical columns of hot air move heat aerodynamically instead of using high temperatures. The streams of hot air remove the boundary layers of cool heavy air which tend to insulate the product. All Middleby ovens are designed to cook a multitude of products including pizza, seafood, sandwiches, bagels, ethnic foods and more.

General Information

The PS536ES conveyor oven is ideally suited for Kiosk and express-style locations where smaller ovens are required.

Standard Features

- Impingement PLUS! low oven profile and dual air return
- Patented EMS Energy Management System* reduces energy consumption and increases cooking efficiency
- 36"/914mm long cooking chamber
- 18"/457mm-wide, 60"/1524mm long conveyor belt
- · Stackable up to three units high
- Patented "Jet Sweep" impingement process that delivers constant heat to the chamber
- Microprocessor-controlled bake time/conveyor speed
- Customer-specific adjustable jet fingers that allow control of heating zones in 8"/203mm zones
- · Stainless steel front, sides, top and interior
- · Front-loading window with cool handle
- · Reversible conveyor direction

Optional Features

- Split belt two 9"/229mm belts with individually adjustable speed settings
- 76"/1930mm-long conveyor

Conserves Energy

Unit incorporates a patented Energy Management System - EMS. Middleby ovens provide very efficient heat transfer to product. Energy is conserved as air is recycled from heater to product, with minimum loss. Oven is cool to the touch.

Cleanability

PS536ES Ovens are designed for easy cleaning. Removable parts include: crumb pans, end panels, air fingers, exit tray, and a removable conveyor belt assembly.

Easily Services

Control compartment is designed for quick and easy access.

Warranty

All PS536ES models have a one year parts and labor warranty. Oven start-up is included at no additional charge (USA only).

Ventilation

Use of a ventilation hood is strongly recommended.
