## What is the Skills Bank?

The Skills Bank is a £17 million fund to upskill workers in the Sheffield City Region. The funding comes from two streams: the European Social Fund and Growth Funding. If candidates are eligible they can be funded under both streams.

The Sheffield City Region comprises nine local authority areas: Barnsley, Bassetlaw, Bolsover, Chesterfield, Derbyshire Dales, Doncaster, North East Derbyshire, Rotherham and Sheffield.

Your CQM Account Manager will help you select the courses you need and then guide you through the registration process to claim your funding.

How much you can claim is dependent on the size of your organisation and the sector you work in. However, you could receive up to 70% funding. This is assessed on a case by case basis.

All of our courses require a minimum of six people to run. If you do not have six people for the course at your organisation please contact us to enquire about open courses or a bespoke quote for fewer learners.

**All prices listed are exclusive of VAT.**

To claim Skills Bank funding, you will have to register on their website:

**[sheffieldcityregionskillsbank.co.uk](https://sheffieldcityregionskillsbank.co.uk)**

CQM Learning can help to guide you through registration, identifying the best training to develop your staff and creating a Skills Deal to secure your funding.

## Negotiating a Skills Deal

The courses in this brochure are suitable for Skills Bank funding as they will up-skill your staff to provide caring, safe and effective services which are responsive to the needs of your residents, service users and clients.

Recognising staff development requirements and addressing them through effective, relevant training will:

- Improve the image of the company e.g. through improved CQC inspection reports
- Reduce time spent by management on dealing with issues and incidents
- Reduce waste and duplication of effort through incorrect practices, recording and reporting
- Reduce business costs – which you can then invest in other training areas
- Show your staff a level of commitment to them which should result their loyalty to your organisation, thus reducing staff turnover

*Call us and we'll help you  
to get the best deal!*

## Who are CQM Learning?

Based in Sheffield, we are an independent training provider, delivering to a wide range of businesses across the region. We have trained over 25,000 people in the last seven years.

We create bespoke packages of vocational training to equip people with the skills and awareness they need to operate within the law and best practice guidance.

Our comprehensive training portfolio includes trainer-led workshops, distance learning and e-learning. We can manage everything from training needs analysis and recruitment to post training evaluation and reporting.

### Accredited Training Centre

We have Ascentis, Pearson, and HABC accreditation and receive extremely positive feedback during our EQA visits. We only employ vocationally experienced occupational Assessors and Verifiers who share our passion for learning.

**“On behalf of the Services Manager and all the team at Rethink Sheffield Services, I would like to thank CQM Learning for a brilliant training day. The training was very well formulated and was delivered to a very high standard. We found it thought-provoking and extremely interesting and are in no doubt that we will utilise what we learned. The day also contained well timed exercises, which made the training particularly enjoyable.”**

# Data Protection and Record Keeping

Price per person	1-10	11-20	21+
Standard	£49.50	£47.50	£45
70% funding	£14.85	£14.25	£13.50
60% funding	£19.80	£19	£18
50% funding	£24.75	£23.75	£22.50

Effective written communication is essential for all care services to demonstrate the standards and types of care being delivered. If documentation is not up to scratch or if aspects are omitted, then employees/employers can be held accountable both legally and professionally. Poor care planning and record keeping means that organisations are unable to defend themselves in cases of litigation, as it is this documentation that is examined in court.

Failure to comply with the Data Protection Act can result in criminal proceedings, large fines, seizure of personal data and civil action.

## Course content

- Identify records kept within the care setting and their purpose
- The importance of accurately maintaining such records
- Barriers to good record keeping
- Factors that will ensure effective record keeping
- Legal requirements for record keeping and data protection
- Measures to ensure the safety and security of care records
- Demonstrate your skills in record keeping

### Target Audience

All health and social care professionals.

60% funding	£19.80	£19	£18
50% funding	£24.75	£23.75	£22.50

This legislation relates to incapacitated patients/residents who, as a result of the care and treatment they are being provided with, are deprived of their liberty. The actual definition of what amounts to a deprivation remains unclear and we have to look at each individual case and the factors in that case. The Court of Protection is becoming increasingly active in identifying unlawful deprivations of liberty and naming those parties involved.

## Course content

- What is capacity?
- The 5 statutory principles
- Restraint and restriction
- The Bournewood Case
- Restriction or deprivation?
- Identifying a deprivation of liberty
- When DoLS should be used

50% funding	£187.50	£177.50	£167.50

Activity provision for people who live in a care setting can make a significant contribution to their well-being and quality of life. Simple activities such as taking a walk, playing cards, listening to the radio or looking after a pet can help give pleasure and bring purpose to the day.

This Level 2 distance learning qualification aims to provide staff in the health and social care sector with comprehensive knowledge and understanding of the potential benefits for individuals in social care of engaging in both everyday and programmed activities.

### Course content

- Activity provision in social care
- Delivery of activities in social care
- Benefits of engaging in activities in social care
- Dementia awareness

This course is accredited by Pearson and is also eligible for £120 of Workforce Development Funding.

#### Target Audience

Residential care staff, care home managers, domiciliary care workers, support workers and activity coordinators.

50% funding	£117.50	£107.50	£97.50

The new Care Act, the CQC and Skills for Care all state that managers and senior care workers must be trained in the Mental Capacity Act:

- This course meets those knowledge requirements at QCF Level 3
- Make sure there is always a member of staff on duty with the correct knowledge by training a minimum of two people
- Distance learning doesn't pull key staff away from duties for training sessions

In their '**Recommendations for CQC Providers**' Skills for Care detail the Level 3 Award in Awareness of the Mental Capacity Act 2005 as the recommended qualification for knowledge on this subject.

This course is accredited by Ascentis and is also eligible for £45 of Workforce Development Funding.

## Target Audience

Healthcare workers, IMCAs, Social workers, Residential care staff, Care home managers, Domiciliary care workers, Support workers, Doctors, Nurses, Dentists, Psychologists, Occupational therapists.
