

Satellite Imagery

NOW INCLUDED WITH SIRRUS PREMIUM SUBSCRIPTION

With the release of Sirrus Version 4.2, satellite imagery will be included in Sirrus Premium subscriptions with no additional fee. Sirrus Premium users can enroll an unlimited number of fields, simply select a field and tap "Enroll"!

PREMIUM IMAGERY HIGHLIGHTS:

- Images are delivered in native resolution (Sentinel 10m, Landsat 30m) at least once per week.
- Each image will include True Color, NIR, and NDVI transforms.
- All images are delivered. You decide whether to accept or reject the image based on visual cloud cover.
- Share a quick PDF report of imagery via email, text message or Dropbox.
- Use imagery in the background for any activity to guide Scouting or creating recommendations.
- Enrolled images sync to agX for use with any other agX compliant application like SST Summit.
- No limit on number of fields that can be enrolled.
- Side-by-side comparison maps of imagery and other layers.
