
Product – Information **Agum C**

Product - Description:	Machine gumming for ctp printing plates, ready-for-use
Range for use:	Gumming for machine and manual offset plates processing, especially developed for ctp printing plates.
Features:	Neutralizes the offset printing plate after the developing process and gives a colloidal protective cover. It has an hydrophilic effect on printing-free areas and makes a quicker ink acceptance. By well dosed conservation it can be used in gummin stations for a longer time period.
	density: 1,05 g/cm³
	pH-value: 4,6
	colour: green
	flash point: > 100°C
Use annotation:	---
Marks:	no dangerous good
Units:	10 x 1l, 10 l, 20 l cans; 200 l barrel
Annotation:	---
