

Product – Information

Eggolan E 40101

Product – Description:	Universal, All wash for blankets and ink rollers.
Application field:	Sheetfed, Heatset- and Coldset printing.
Properties:	Very efficient cleaning, spontaneous emulsification with water and corrosion inhibited. Low in odour. Specific density: 0.77 g/cm ³ Colour: Colourless Flashpoint: 40°C
Directions for use:	<p><u>Blanket:</u> Put Eggolan E 40101 on a clean damp cloth and clean quietly with long strokes to give the solvent and water time to penetrate the ink and paper related deposits. Repeat if necessary. As a last cleaning use pure water to obtain a fast drying of the rubber surface.</p> <p><u>Inkrollers</u> Use pure without water initially, use blade to remove the ink rests and use only water on a clean cloth to remove any remaining emulsifiers.</p> <p><u>Automatic cleaning:</u> Follow instructions of the wash program.</p>
Label:	UN 1993, class 3, packaging group III
Packaging:	20 I, 200 I, 1000 I
Remarks:	After the delivery use up within 12 months.
