

APPLICATION PODIATRY

EXAMPLES

Damaged skin (athlete's foot)

Wound in case of ingrown nail

Dry, cracked skin and rhagades

TREATMENT

- 1 Clean or disinfect affected skin area.
- 2 Spray **WUNDE** onto the affected skin area.

Affected area	Number of spray puffs	Treatments per spray
1cm x 1cm	2	52
3cm x 3cm	ca. 5	21
6cm x 6cm	ca. 15	7

- 3 If necessary, cover the affected skin area with a plaster or a non-woven gauze.
- 4 If necessary, cushion the affected skin area.
- 5 Repeat treatment every 24 hours or more often if needed.

Important: Please regularly take care of your feet also after complete healing!
In case of chronic wounds the dressing change has to be performed in consultation with the treating health care professional!
