

Copenhagen, DENMARK | June 13-15, 2018

11th European Conference on Tourette Syndrome and Tic Disorders

Annual Meeting of the European Society for the Study of Tourette Syndrome

EVALUATION FORM

GENERAL

1.	Have I learned something from this event?				
	Yes		Neutral		No
	5	4	3	2	1

2.	Was the event well organised?				
	Yes		Neutral		No
	5	4	3	2	1

3.	The quality of the content was:				
	Good		Neutral		Poor
	5	4	3	2	1

4.	The quality of the speakers was:				
	Good		Neutral		Poor
	5	4	3	2	1

5.	Was the location (venue) appropriate for the event?				
	Yes		Neutral		No
	5	4	3	2	1

6.	Did I feel the event was commercially biased?				
	Yes		Neutral		No
	<u>5</u>	<u>4</u>	<u>3</u>	<u>2</u>	<u>1</u>

SCIENTIFIC PROGRAM

Please rate the following sessions, in the box beside each talk that you attended:

Not useful 1 2 3 4 5 **Very useful**

		Rating	I did not attend
June 13th	13:00-16:00 Behavioural therapy for tic disorders: Where to next? Developing your toolkit		
	13:00-16:00 Oral presentations selected from abstracts		
	16:45-17:30 Keynote Lecture: In the borderland of normality - tics as models of increased perception action binding		
June 14th	8:30-10:30 Session I. Update on etiology		
	08:30-09:00 Updates on large scale collaborative studies for Tourette Syndrome		
	09:00-09:25 Structural variants and protein networks in Tourette Syndrome		
	09:25-09:50 Genome-wide methylomic analysis of neonatal blood from Danish twins discordant for mental illness		
	09:50-10:30 Oral presentations selected from submitted abstracts		
	11:00-13:00 Session II. Immunity, environment and tic disorders		
	11:00-11:45 Update on PANS and PANDAS		
11:45-12:30 What are we learning about Tourette's from population-based studies? The example of autoimmune			

	diseases		
	12:30-13:00 Oral presentations selected from submitted abstracts		
	13:30-14:00 Poster walk (P1-P16)		
	14:00-16:00 Session III. Neurobiology of Tourette syndrome		
	14:00-14:45 The Role of Dopamine in Tourette Syndrome: A Computational Account		
	14:45-15:30 Insights from animal models on the pathophysiology of tics and comorbid symptoms		
	15:30-16:00 Oral presentations selected from submitted abstracts		
June 15th	8:30-10:00 Session IV. Comorbidities		
	08:30-09:00 Comorbidities in clinical versus non-clinical populations of children and adolescents with TS		
	09:00-09:30 Course of Tourette Syndrome and Comorbidities in a Large Prospective Clinical Study		
	09:30-10:00 Oral presentations selected from submitted abstracts		
	10:30-12:15 Session V. Treatment		
	10:30-11:00 Efficacy and safety of the cannabinoid modulator ABX-1431 in Tourette Syndrome: results from a phase 1b study		
	11:00-11:30 An update on deep brain stimulation on Tourette Syndrome.		
	11:30-12:15 Oral presentations selected from submitted abstracts		
	12:15-13:00 Keynote Lecture: Evidenced-Based and Emerging Treatments for Tourette Syndrome		
	13:25-14:00 Poster walk (P17-P33)		
	14:00-14:30 The professor Mary Robertson Award. Efficacy of a Resource Activation Treatment in Children with Chronic Tic Disorders – A Within-Subject Analysis		
	14:30-16:00 Session VI. Hot topics		
	14:30-16:00 Oral presentations selected from submitted abstracts		
	16:15-17:30 Session VII. Clinical rounds
