President, and the Trustees and Professors of the College of Physicians and Surgeons of the University of the State of New-York; And Publicly Defended for the Degree of Doctor of Medicine, on the If we search the records of most systematic writers on surgery, it will be found that very little is said of wounds of the veins; however, it is not our object to inquire into the cause of this omission. But, to show that the subject is worthy of particular examination, we quote the following: First, from Boyer, who observes, that "the hemorrhage from a large vein may become very dangerous when the vein is the only one belonging to the limb; for then the compression or ligature necessary to staunch the blood, hinders its return to the heart, and the member swells so prodigiously that gangrene may supervene. The examination syllabus has changed since the first edition was prepared; it now contains much on safety and hygiene.

The Obscene Bird of Night: A Novel Writer
