

"The Premier Source of Custom Healthcare Kitting, Bulk Specimen Collection Devices, and Secure Kit Warehousing, Logistics, and Fulfillment Services"

TURNKEY FDA CLASS I & II HEALTHCARE KITTING

The tried-and-true healthcare kitting processes and solutions of Strategic Lab Partners LLC (SLP) save clients' money, time, and stress. Its partner relationships with manufacturers provide more expedient access to FDA Class I & II clinical supplies when needed, thus eliminating back-orders that can add up to 50% to their acquisition.

SLP provides its clients with supply chain analysis and demonstrates and predicts savings before committing to any custom kitting, fulfillment, warehousing, or logistics agreement.

Strategic Lab Partners is the premier supplier of FDA Class I & II specimen collection and transport kitting for clinical, institutional, government emergency services, medical, and retail clients that require secure, streamlined, and efficient RNA/DNA sampling processes. Its turnkey test kits can be private-labeled with easy-to-follow instructions designed to improve return rates, test accuracy, secure samples, and contribute to achieving a greater ROI.

STRATEGIC LAB PARTNERS HEALTHCARE KITTING ADVANTAGE
