

THE SLP WAY

Strategic Lab Partners is the premier source of custom universal kitting because of its seamless integration of FDA-approved specimen collection and transport devices, real-time analytics, and nationwide 3PL solutions. Its **SLP Connect™ Premium Kitting Deployment and Centralized Management Ecosystem** delivers cost-effective, reliable specimen collection and diagnostic solutions that transform decentralized clinical operations in manageable and dependable processes.

It is a worldwide provider of universal kitting and deployment, 3PL management, and warehousing for clinical, institutional, government emergency services, medical, and retail clients that require secure, streamlined, efficient RNA/DNA sampling processes, and real-time healthcare supply chain management. It is widely recognized for its **"Triple Promise"** of Seamlessness, Decentralized Accuracy, with Uninterrupted Performance which turns operational complexity into strategic clarity.

**Centrally-Located

Complexes**

STRATEGIC LAB PARTNERS

SAMPLE ACCESSIONING ADVANTAGE

Strategic Lab Partners (SLP) has elevated the accessioning process into a strategic advantage through its innovative accessioning system. **SLP CONNECT™ Premium Kitting Deployment and Centralized Management Ecosystem** for efficient and tracking, ensuring all sample details are accurately documented. SLP CONNECT™ transforms the movement of biological samples, diagnostic materials, and specialized kits by automating replenishment, enabling GPS-enabled tracking, and ensuring. More than logistics, it is a compliance-ready, scalable infrastructure that supports precision medicine, consumer genomics, and global diagnostics. through effective sample tracking and audit trails.

**"We don't just move samples; we protect the data
validity of your clinical trials and diagnostic deployments."** 

The SLP MISSION

Strategic Lab Partners (SLP) transforms research infrastructures across Genomics, Multi-Omics, and Precision Medicine by unifying data precision, logistical speed, and sample integrity in one connected ecosystem. Through **SLP CONNECT™, our Premium Kitting Deployment and Centralized Management Ecosystem**, we integrate precision kit production, global logistics, and real-time digital visibility to ensure complete control from design to deployment.

Our mission is to deliver reliable, scalable, and compliant operations that help research sponsors and CROs run complex studies with advanced-manufacturing accuracy. We elevate healthcare supply chains with universal kitting, serialized tracking, and value-based logistics—strengthening quality, reducing variability, and accelerating scientific discovery.
