

The Standards Institution of Israel

This is to certify that: System for Real-Time Monitoring
and Detecting of Electrical Faults

Model: Main Unit SE85.1
Power Supply PS505.1

Ratings: 100-240 / 173 - 415Vac,
3P+N+PE, 50/60Hz, 0.1A/ph

Manufactured by: Electrical Systems Protection Ltd. (ESP)

Address: 7 Tulipman St., Rishon Lezion 7536412,
Israel

has been tested by the Electrical Safety Branch of the Electricity
and Electronics Laboratory of the Standards Institution of Israel
and found to comply with the standard requirements of:

- ❖ IEC 61010-1: 2010, AMD1:2016
- ❖ EN 61010-1: 2010, AMD1:2019
- ❖ UL 61010-1 (3rd Ed.); Am. 1
- ❖ CAN/CSA-C22.2 No 61010-1 + Amd. 1

*Safety requirements for electrical equipment for
measurement, control, and laboratory use.
Part 1: General requirements*

- ❖ IEC 61010-2-030: 2017

*Safety requirements for electrical equipment for
measurement, control, and laboratory use.
Part 2-030: Particular requirements for equipment having
testing or measurement circuits*

Test results are detailed in the SII Test Report No.: 9912313014.

Certificate No.: 9912313014A
